Interference No. 105,619 has been terminated by a decision favorable to applicant. *Ex parte* prosecution is resumed.

Claims 46, 49-51, 53, 56-62, 65, 65, and 89 are pending in this application.

This application is in condition for allowance except for the following formal matters:

(1) In the preliminary amendment of 10/3/2003, a new paragraph was inserted after the title on page 1 of the specification. There, it is stated that this application is a **continuation** of 09/671,100. However, this application contains subject matter that is not in 09/671,100, so this application cannot be a continuation of 09/671,100. Applicant should change the relationship to **continuation-in-part**.

(1A) All related applications must be updated as to their patented or abandoned status. For example, 09/671,100 should be disclosed as "09/671,100, filed September 27, 2000, now abandoned"

(2) The proper heading of the section that starts on page 3, line 1 should be "Brief Description of the Drawings." Correction is requested.

(3) Figure 19 is actually comprised of Figures 19A, B and C. However, the brief description of the drawings on pages 9-10 describes only Figure 19. Brief description of Figures 19A, B and C must be provided.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Many foreign language publications were submitted by applicant in the IDS of 6/30/2008. It is noted for the record that the foreign language publications have been considered only to the extent of applicant's concomitant submission of an English translation or abstract thereof or applicant's explanation of the relevance of the documents, if any.
